

Rx TrackerSM

Mail-back disposal program for pharmaceutical waste

Safe. Convenient. Environmentally responsible.

Improperly discarding medications can pose risks to public health and the environment. Waste Management's RxTracker provides a simple way to safely contain non-controlled, unwanted or expired pharmaceutical materials and ship them for disposal at your convenience.

As North America's leading provider of environmental solutions, Waste Management:

- Helps you avoid fines and protects your reputation in the community
- Supports your efforts to keep our waterways and streams clean
- Environmentally responsible treatment and disposal
- Provides an online site where you can verify receipt and destruction of your package

More than ever, people, healthcare and the environment are inextricably linked. At Waste Management, we understand the challenges involved with managing pharmaceutical materials in compliance with federal and state regulations. RxTracker enables you to proactively respond to escalating regulatory oversight and demonstrate your environmental leadership within your community, business and industry.

RxTracker is ideally suited for

- Retail pharmacies
- Assisted living centers
- Nursing homes
- Long-term care facilities
- Hospice-care facilities
- Medical clinics
- Physician practices
- Veterinary offices

Rx TrackerSM

Mail-Back disposal program for pharmaceutical waste

The Right Size. The Right Solution.

RxTracker provides everything you need to safely and cost-effectively store and ship potentially hazardous pharmaceutical materials to us. The container is approved for shipment via UPS Ground and a prepaid return shipping label is included with the kit.

To order, visit www.wmtracker.com and select RxTracker under Products or call 1-800-664-1434.

During the order process, you will be asked to certify that your company qualifies as a Conditionally Exempt Small-Quantity Generator (CESQG) and that your facility is not in a prohibited state.

* A listing of states not eligible for this service can be found in the right column.
